

HEMET HIGH SCHOOL STADIUM & STRENGTH TRAINING FACILITY

The Hemet High School Stadium project was made possible by the acquisition of an additional 16 acres across the street from the main campus and includes the construction of concession, restroom and ticket buildings, stadium lighting, new synthetic turf, track and bleachers. Also included in this project was the construction of additional parking and physical education classrooms.

Construction Cost: \$9,131,992
Hemet Unified School District
