

## CALIFORNIA MILITARY INSTITUTE

The modernization for the Perris Union School District consists of a new 6,700 square foot building inclusive of four classrooms dedicated to advanced science along with interconnected preparation space and storage rooms. The building houses a music/band classroom with two adjacent practice rooms and one storage room. The building also provides much needed restrooms for the campus staff. A critical upgrade to the main campus electrical transformer and distribution gear was required to meet current and future campus growth as well as modern building code standards. Lastly, the campus received accessibility upgrades to parking lots, pedestrian walkways, and service access ways.

### MUSIC + SCIENCE BUILDING

Square Feet: 6,500  
Construction Cost: \$1,690,000

### WEIGHT BUILDING

Square Feet: 1,600  
Construction Cost: \$368,000
