

DR. AUGUSTINE RAMIREZ MIDDLE SCHOOL

Within the “blank-slate” of this large scale area of new housing developments, this new middle school will present a new architectural expression and solution for the delivery of quality educational programs. Extensive planning with several district and local agency groups have developed the function of the school. The 27.5 acre school site accommodates 1600 7-8 grade students. Aside from standard classrooms, the project will include a multi-purpose room, art, “Tech-Core” and “Growing Up Ready” programs, 8 science classrooms and an indoor gym.

Square Feet: 113,191
Estimated Construction Cost: \$32,708,300
